State of California
Air Resources Board

Agenda: **Public Consultation Meeting on Compliance Flexibility in Gasoline Regulations**

May 19, 1998
9:30 a.m. pdt

Introductions

Changes to Cap Limits

Exhaust Modeling

- Progress on Tech 4 diagnostics
- Tech 5 modeling efforts

Evaporative emissions modeling

- Models for individual evap. HC modes
- Integration of evap and exhaust models
  - --scaling
  - --reactivity
- Benzene fraction models

Analysis of data on reactivity

Efforts to analyze emissions from high emitters

Recinding winter oxygen requirement (ex-SCAQMD)

Open Discussion

If you are interested in participatin by phone, dial (818) 247-0278 code 5019.
