**Funding Agricultural Replacement Measures for Emission Reductions (FARMER) Program**

As reported through September 30, 2019

---

### FEATHER RIVER AQMD

**$1.97 million** in implemented projects  
**28** number of projects

---

#### Dollars Invested by Project Type

- **43%** Tractors/Harvesters  
- **57%** Agricultural Trucks

#### Implemented Projects

- **13** Agricultural Trucks  
- **0** Irrigation Pump Engines  
- **15** Tractors/Harvesters  
- **0** Agricultural Utility Terrain Vehicles

#### Emissions Reduced

- **280 MTCO₂e**  
- **3,100 lbs**  
- **56,000 lbs**

* Metric tons of carbon dioxide equivalent

---

### FARMER Appropriation

Since 2017, the California Legislature has appropriated $332 million statewide – with 65% of the funds benefiting disadvantaged and low-income communities. This signifies the state’s commitment to reduce agricultural sector emissions by providing grants to replace high-emitting agricultural equipment with cleaner equipment. The table to the left shows the Feather River AQMD’s allocation by fiscal year.

---

The FARMER Program is funded in part by California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.
