Funding Agricultural Replacement Measures for Emission Reductions (FARMER) Program

SAN DIEGO COUNTY APCD

$1.17 million in implemented projects

27 number of projects

Dollars Invested by Project Type

1% Agricultural Utility Terrain Vehicles

99% Tractors/ Harvesters

Implemented Projects

Agricultural Trucks: 0

Irrigation Engines: 0

Tractors/ Harvesters: 26

Agricultural Utility Terrain Vehicles: 1

Emissions Reduced

Greenhouse Gases (GHG): 330 MTCO₂e*

Fine Particulate Matter (PM₂.₅): 15,200 lbs

Nitrogen Oxides (NOₓ): 136,000 lbs

* Metric tons of carbon dioxide equivalent

FARMER Appropriation

Since 2017, the California Legislature has appropriated $332 million statewide – with 65% of the funds benefiting disadvantaged and low-income communities. This signifies the state’s commitment to reduce agricultural sector emissions by providing grants to replace high-emitting agricultural equipment with cleaner equipment. The table to the left shows the San Diego County APCD’s allocation by fiscal year.

The FARMER Program is funded in part by California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing GHG emissions, strengthening the economy, and improving public health and the environment – particularly in disadvantaged communities.
