

**Dioxin/Furan Annual Average TEQ  
Phase 1 and Phase 2 Sites  
2002-2006**

The TEQ at Livermore for 2002 was driven by two high peaks (January and October sampling moments) that were not repeated throughout the year.

■ 2002   
 ■ 2003   
 ■ 2004   
 ■ 2005   
 ■ 2005-2006\*

\*2005-2006 Averages for Fresno sites includes data from June 2, 2005 through May 29, 2006
