

**South Central Fresno Community  
Emissions  
Reduction Program  
February 13, 2020**

# Key Strengths

- Clear identification of funding amounts and metrics for tracking progress
- Community air monitoring plan development process
- Addition of meeting co-hosts
- Community-based leadership within committee

# Recommended Actions to Strengthen Implementation

Staff identified areas for the Air District, CARB, and steering committee to work together on:

Strategy Prioritization

Tracking Progress

Communication

Engagement on Land Use

Lessons learned during the first year will help future communities address implementation during the planning process.

# Staff's Recommendation

- Approve the South Central Fresno community emissions reduction program
- Pursuant to additional direction to CARB staff and the Air District to:
  - Implement recommendations outlined in CARB staff report
  - Identify specific implementation steps and milestones for each strategy
  - Report back to Board within six months on implementation of these actions
