RESEARCH PROPOSAL

Responses in Asthmatic Children to Short-term Fluctuations in Particulate Air Pollution:
Implications for Asthma Natural History
Part A: Epidemiologic and Clinical Component

Resolution 00-6
January 28, 2000

WHEREAS, the Air Resources Board has been directed to carry out an effective research program in conjunction with its efforts to combat air pollution, pursuant to Health and Safety Code Sections 39700 through 39705; and

WHEREAS, a research proposal, number 2447-212A, entitled "Responses in Asthmatic Children to Short-term Fluctuations in Particulate Air Pollution: Implications for Asthma Natural History -- Part A: Epidemiologic and Clinical Component", has been submitted by the University of California, Berkeley; and

WHEREAS, the Research Division staff have reviewed and recommended this proposal for approval; and

WHEREAS, the Research Screening Committee has reviewed and recommends for funding:

Proposal Number 2447-212A entitled "Responses in Asthmatic Children to Short-term Fluctuations in Particulate Air Pollution: Implications for Asthma Natural History -- Part A: Epidemiologic and Clinical Component", submitted by the University of California, Berkeley, for a total amount not to exceed $1,976,053.

NOW, THEREFORE BE IT RESOLVED, that the Air Resources Board, pursuant to the authority granted by Health and Safety Code Section 39703, hereby accepts the recommendation of the Research Screening Committee and approves the following:

Proposal Number 2447-212A entitled "Responses in Asthmatic Children to Short-term Fluctuations in Particulate Air Pollution: Implications for Asthma Natural History -- Part A: Epidemiologic and Clinical Component", submitted by the University of California, Berkeley, for a total amount not to exceed $1,976,053.
