Background

In 2006, the Legislature passed the California Global Warming Solutions Act of 2006 (Assembly Bill 32 (AB 32); Stats. 2006, chapter 488). AB 32 created a comprehensive, multi-year program to reduce greenhouse gas (GHG) emissions in California.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: http://www.arb.ca.gov.
AB 32 requires ARB to convene an environmental justice advisory committee to advise it in developing the Scoping Plan and any other pertinent matter in implementing AB 32. The First Update to the Climate Change Scoping Plan was approved by the Board on May 22, 2014. In April 2015, Governor Brown set a new interim statewide target to reduce greenhouse gas emissions to 40 percent below 1990 levels by 2030 and directed ARB to further update the Scoping Plan.
