Truck-Trailer Greenhouse Gas Emissions

Truck-trailer emissions contribute significantly to greenhouse gas emissions and these efforts to reduce them are important for lowering the overall impact on global climate change. In 2003 SmartWay first introduced the “SmartWay Trailer” that included specific requirements for trucks and trailers to help reduce their emissions. Since then, the program has evolved and new requirements have been added to focus on more specific areas of emissions reduction.

Key Changes

- In 2003, “SmartWay” trailers were introduced with specific requirements to help reduce emissions.
- In 2009, new requirements were added to focus on more specific areas of emissions reduction.
- In 2010, new requirements were added to focus on more specific areas of emissions reduction.
- In 2011, new requirements were added to focus on more specific areas of emissions reduction.
- In 2012, new requirements were added to focus on more specific areas of emissions reduction.
- In 2013, new requirements were added to focus on more specific areas of emissions reduction.
- In 2014, new requirements were added to focus on more specific areas of emissions reduction.
- In 2015, new requirements were added to focus on more specific areas of emissions reduction.
- In 2016, new requirements were added to focus on more specific areas of emissions reduction.
- In 2017, new requirements were added to focus on more specific areas of emissions reduction.
- In 2018, new requirements were added to focus on more specific areas of emissions reduction.
- In 2019, new requirements were added to focus on more specific areas of emissions reduction.

PO BOX 2815 SACRAMENTO CA 95812 (800) 242-4450

3/26/2011
• Violations
• Repeated violations
• Other violations

Who is the responsible party?

- Commercial truck
- Passenger vehicle

In what capacity?

- Owner operator

What are the violations?

- Emissions
- Anti-hijacking

Using 2012 as base year, ARB has made SmartWay available on:

- CD-ROM
- SmartWay website

Only commercial truck owners or operators can use SmartWay to help reduce emissions.

For more information, you can contact SmartWay at:

- SmartWay website: http://www.epa.gov/smartway/
- SmartWay phone number: (734) 214-4767
- SmartWay email: smartway_transport@epa.gov

ARB is committed to assisting you with the SmartWay program. You can contact us at:

- ARB Customer Service: (800) 700-8326 (TDD, TTY), (916) 324-9531 (TDD, TTY), (916) 324-5055 (FAX)
- SmartWay TTY/TDD contact: (916) 324-9531 (TDD, TTY), (916) 324-5055 (FAX)
