MAY 22 2008  
EO 5-86

Dear Ms. Nichols,

Thank you for working hard to keep our air clean.

I think it's important that polluters pay for permits to emit their greenhouse gases instead of getting their permits for free.

This is a good way for polluters to feel the pain so they will be very motivated to change.

Auctioning off these permits would provide a real incentive to reduce carbon emissions.

most sincerely,

Sandra Trutt

Ms Sandra Trutt
