April 8, 2011

Dear Sir or Madam:

The staff of the California Air Resources Board (ARB) invites you to participate in a public meeting to discuss the fuel comparison study of California diesel fuel and federal diesel fuels.

The Legislature enacted Assembly Bill 679 (Stats. 2006, ch. 11) requiring ARB to convene a panel of interested parties to develop a test protocol to measure the differences in oxides of nitrogen and particulate matter emissions between California diesel fuel and the U.S. Environmental Protection Agency’s 2006 low sulfur highway diesel fuel. This meeting will be the seventh meeting of the Diesel Fuel Comparison Study Advisory Panel (Panel).

Discussion topics for the Panel will include, but are not limited to, approval of minutes from the previous meeting; an overview of the engines, vehicles, and fuels tested; an overview of the test cycles and test procedures; and presentation of the test results. A proposed agenda and a list of the Panel members are enclosed. For more information regarding the Diesel Fuel Comparison Study, you may want to visit the Diesel Fuel Program webpage at http://www.arb.ca.gov/fuels/diesel/dieselcomp/dieselcomp.htm.

The time and place of the public meeting are shown below:

Date: Thursday, May 5, 2011
Time: 1:00 pm to 4:00 pm
Location: Cal/EPA Headquarters Building
Conference Room 620
1001 I Street, 6th Floor
Sacramento, California 95814

If you require a special accommodation or need this document in an alternate format (i.e. Braille, large print) or another language, please contact Mr. Valentine Montoya at (916-324-0428 or ymontoya@arb.ca.gov) as soon as possible, but no later than 10 business days before the scheduled event/meeting. TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: http://www.arb.ca.gov.
