The Hydrogen Station Capacity Evaluator (HySCapE) is proposed to be incorporated by reference in the LCFS regulation.

Download the HySCapE model here: https://www.arb.ca.gov/fuels/lcfs/ca-greet/2018-0813_hyscape1.zip

To run HySCapE, all users must also download MATLAB Runtime Version 9.2. This can be found for Windows, Mac and Linux systems at the following website: https://www.mathworks.com/products/compiler/matlab-runtime.html

Download HySCapE documentation here: https://www.arb.ca.gov/fuels/lcfs/ca-greet/2018-0813_hyscape_documentation.pdf
