

Form Letter 1 for Comment 23 for Verification Procedures, Warranty and In-Use Compliance (verdev2010) - 45 Day.

First Name: Melissa

Last Name: Kidd

Email Address: ctt5@sent.com

Affiliation:

Subject: diesel engine regulation

Comment:

I do not wish the government or the ARB to pass further regulations on Diesel or Gasoline engines, both on-road and off-road.

It makes no sense that a 1 ton truck used to get 20+ mpg without all the extra emissions controls, now the same truck gets 12-16mpg.

Has there honestly been a 40% reduction in emissions to justify the wanton waste of fuel? I do not want my tax dollars spent monitoring private individuals or businesses. I do not want or see the need for more emissions products to be forced to be installed on/in vehicles for private individuals, businesses or manufacturers by our government. It is hurting our economy.
