State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER B-56U

Relating to Conversion of Off-Road Engines to Alternative Fuels

California Clean Air Technologies LLC

Pursuant to the authority vested in the Air Resources Board by Sections 43013 and 43018 of the Health and Safety Code; and

Pursuant to the authority vested in the undersigned by Sections 39515 and 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the propane-diesel dual-fuel conversion system, manufactured by California Clean Air Technologies LLC of 31936 Theresa Court, Menifee, California 92584, is certified as described below for the following off-road compression-ignition engines and applications:

Fuel type: Propane-diesel or diesel-only

Engine: 2011 and older Caterpillar, Cummins, Detroit Diesel, John Deere, Kubota, MTU Detroit Diesel, Navistar, and Volvo

Displacement: 2.5 to 15 liters

Horsepower: 100 to 675

Emission standards: Tier 1, Tier 2, and Tier 3

Application: Mobile

Test cycle: 8-mode steady-state

Major conversion system components:
Propane engine control unit
Propane regulator
Mixer pin assembly
Injector rail assembly
Propane injectors
Propane supply hose assembly
Safety solenoid valve
Propane temperature/pressure sensor
Diesel oxidation catalyst

Diesel rack actuator (mechanical only)
Diesel rack position sensor (mechanical only)
Throttle position sensor (mechanical only)
Exhaust temperature sensor
Air intake temperature sensor (mechanical only)
Air intake pressure sensor
Engine coolant temperature sensor (mechanical only)
RPM sensor (mechanical only)

This certification is only valid provided the engines converted with the propane-diesel dual-fuel system operate within the exhaust backpressure limits specified by the original equipment engine manufacturers.
The 8-mode steady-state certification test emission values and the applicable emission standards for the test engines are shown below:

All emission control systems and engine manufacturer’s tune-up label shall be retained. The engine shall be adjusted to California Clean Air Technologies LLC’s tune-up specifications. The production conversion system shall be in all material respect the same as that for which certification is granted.

BE IT FURTHER RESOLVED: That California Clean Air Technologies LLC shall provide a supplemental emission control information label, which shall be affixed in a permanent manner adjacent to the original Emission Control Information Label, and shall comply with the labeling requirements described in Sections I.E. of the “California Certification and Installation Procedures for Systems Designed to Convert Off-Road Vehicles, Engines, and Equipment to Use Alternative Fuels,” adopted October 1, 1999.

BE IT FURTHER RESOLVED: That California Clean Air Technologies LLC shall maintain a record of the converted engine and/or equipment identification numbers as required under Section I.G. of the “California Certification and Installation Procedures for Systems Designed to Convert Off-Road Vehicles, Engines, and Equipment to Use Alternative Fuels,” adopted October 1, 1999.

BE IT FURTHER RESOLVED: That California Clean Air Technologies LLC has submitted and the Executive Officer hereby approves the materials required to demonstrate certification compliance with the warranty requirements under Section X. of the “California Certification and Installation Procedures for Systems Designed to Convert Off-Road Vehicles, Engines, and Equipment to Use Alternative Fuels,” Adopted October 1, 1999.

This Executive Order shall not apply to any propane-diesel dual-fuel conversion system advertised, offered for sale, sold with, or installed on an engine prior to or concurrent with transfer to an ultimate purchaser.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE AN ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF CALIFORNIA CLEAN AIR TECHNOLOGIES LLC’S PROPANE-DIESEL DUAL-FUEL CONVERSION SYSTEM.
The conversion system certified under this Executive Order must conform to all applicable California emission regulations. Certification of the conversion system shall not be construed as a certification to sell, offer for sale, or advertise any component of the conversion system as an individually certified part.

Executed at El Monte, California this 3rd day of November 2011.

Annette Hebert, Chief
Mobile Source Operations Division
