

State of California
AIR RESOURCES BOARD

EXECUTIVE ORDER D-264-2

Relating to Exemptions Under Section 27156
of the Vehicle Code

Z-Industries Inc.
Z-Industries Performance Re-Calibration

Pursuant to the authority vested in the Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the installation of the Z-Industries Performance Re-Calibration manufactured and marketed by Z-Industries Inc. of 31200 Santiago Road, Temecula, CA 92592, has been found not to reduce the effectiveness of required motor vehicle pollution control devices and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the General Motors car and truck models listed in Exhibit A.

The Z-Industries Performance Re-Calibration is a modified software calibration that is designed to provide increases in maximum horsepower and torque for the General Motors vehicle models listed in the enclosed Exhibit A. The software calibration is uploaded to the vehicle's engine control unit via the on-board diagnostic connector and a preloaded third-party programming tool. Z-Industries Inc. requires the customer to mail his or her engine control unit to the company in order for the proper calibration to be uploaded. The calibration modifies parameters for the vehicles' air flow, fuel flow, and ignition timing.

This Executive Order is valid provided that the installation instructions for the Z-Industries Performance Re-Calibration will not recommend tuning the vehicle to specifications different from those of Z-Industries Inc.

Changes made to the design or operating conditions of the devices, as exempted by the Air Resources Board, that adversely affect the performance of a vehicle's pollution control system shall invalidate this Executive Order.

Marketing of these devices using any identification other than that shown in this Executive Order or marketing of this device for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the Air Resources Board.

This Executive Order does not constitute any opinion as to the effect that the use of these devices may have on any warranty either expressed or implied by the vehicle manufacturer.

This exemption is issued based on submitted emissions test data from an independent laboratory on a 2011 model year Chevrolet Camaro (Test Group BGMXV06.2089) certified to the Low Emission Vehicle II Low Emission Vehicle (LEV II ULEV) and Supplemental Federal Test Procedure (SFTP) standards:

Federal Test Procedure:

	<u>NMOG</u>	<u>CO</u>	<u>NOX</u>
Standards (g/mi)	0.070	2.1	0.04
Device (g/mi) with df's applied	0.045	1.0	0.02

SFTP (US06 Cycle):

	<u>NMHC+NOX</u>	<u>CO</u>
Standards (g/mi)	0.14	8.0
Device (g/mi)	0.03	0.2

SFTP (SC03 Alternative AC2 Cycle):

	<u>NMHC+NOX</u>	<u>CO</u>
Standards (g/mi)	0.20	2.7
Device (g/mi)	0.01	0.3

Test results showed that the Z-Industries Performance Re-Calibration when installed on the vehicle did not cause exhaust emissions to exceed the applicable emission standards during the Cold Start Federal Test Procedure. This Executive Order is also based on the On-Board Diagnostic II (OBD II) testing conducted on the same test vehicle. The Z-Industries Performance Re-Calibration when installed on the test vehicle did not affect the vehicle's ability to perform its OBD II monitoring.

The Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE Z-INDUSTRIES PERFORMANCE RE-CALIBRATION.

No claims of any kind, such as "Approved by the Air Resources Board" may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 28 day of February 2012.

A handwritten signature in black ink, appearing to read "Annette Hebert", with a long horizontal flourish extending to the right.

Annette Hebert, Chief
Mobile Source Operations Division
