Further, if test results or other evidence provides CARB with reason to suspect that the Volant Performance Air Intake Kits will affect the durability of emission control systems, TMG Performance Products, LLC shall be required to submit durability data to show that the durability of vehicle emission control systems are not, in fact, affected and/or that the add-on or modified parts demonstrate adequate durability.

No claim of any kind, such as "Approved by the California Air Resources Board," may be made with respect to the action taken herein in any advertising or other oral or written communication.
