SUBJECT: PUBLIC WORKSHOP ON DEVELOPING A BENEFICIARY MITIGATION PLAN FOR CALIFORNIA’S ALLOCATION OF THE VOLKSWAGEN ENVIRONMENTAL MITIGATION TRUST

The California Air Resources Board (CARB or Board) invites you to participate in a public workshop on developing a Beneficiary Mitigation Plan (Plan) for California’s $423 million allocation of the Volkswagen (VW) Environmental Mitigation Trust (Mitigation Trust). The Plan will describe CARB’s proposal for spending the State’s allocation, including the overall goals for the use of the funds, the eligible mitigation action categories to be funded with a priority on providing benefits to disadvantaged or low-income communities, the allocations for each proposed category, and the estimated emission reductions.

CARB staff will conduct the workshop at six locations throughout the state between February 26, 2018, and March 8, 2018. All meeting materials will be the same at all six locations. The workshop will be held at the following times and locations:

Redding, CA  96001
The workshop in Sacramento will be webcast for those unable to attend in person. The broadcast can be accessed on the day of the Sacramento workshop, February 26, 2018, at: https://video.calepa.ca.gov/. Information on submitting comments will be provided during the webcast for remote participants.

At this workshop, CARB staff will discuss and seek input on the following:

- Recommended eligible mitigation action categories to be funded.
- Recommended allocation ranges for each proposed category.
- Emission reduction quantification and estimates.
- Administrative process for implementation.

Staff plans to post a draft Discussion Document outlining its recommendations on project categories, funding allocations, and project criteria for this funding the week before the Sacramento workshop on Monday, February 26, 2018, on CARB’s VW Mitigation Trust website at: https://www.arb.ca.gov/msprog/vw_info/vsi/vw-mititrust/vw-mititrust.htm. The draft document will include a workshop agenda. Staff’s presentation will be posted on this website the morning of the Sacramento workshop on Monday, February 26, 2018.

These are the final planned public workshops for the Beneficiary Mitigation Plan, building on input received at a previous public workshop, a public board meeting, via the online comment docket created in September 2017, and individual stakeholder meetings held since October 2017. CARB staff will release a proposed Beneficiary Mitigation Plan, incorporating input received at this workshop, this spring. The Board will consider the proposed Beneficiary Mitigation Plan at a public meeting after a 30-day public comment period.

**Background**

The VW Mitigation Trust is a component of partial settlements with VW resulting from its use of illegal defeat devices—software designed to cheat on emissions tests—in certain
2009 to 2016 model year diesel cars that were sold in California. The Trust provides funding opportunities for specified eligible actions to mitigate the excess nitrogen oxide (NOx) emissions caused by the subject VW vehicles. The Mitigation Trust is enumerated in the first of two Partial Consent Decrees as Appendix D.

In addition to the requirements outlined in the Consent Decree, Senate Bill 92 (Chapter 26, Statutes of 2017) was passed in June 2017, which further directs how California’s Mitigation Trust funds in Appendix D are to be spent. The legislation directs the designated Lead Agency for the Mitigation Trust to strive to ensure that 35 percent of California’s allocation benefit low-income or disadvantaged communities that are disproportionately impacted by air pollution. It also requires the Lead Agency (CARB) to strive to ensure that the expenditures align with the state’s priorities and provide for public transparency before approval.

In March 2017, the Court appointed Wilmington Trust, N.A., as Trustee to administer the Trust for all eligible beneficiaries (states and tribes). The Trust became effective in October 2017. A Beneficiary Mitigation Plan is required to be submitted to the Trustee before the State may expend any funds from its allocation of the Trust.
