ARB has developed a streamlined design-based certification process for boat builders to certify SIMW and receive a California Executive Order (EO). Specifically, boat builders who want to sell in California should follow one of the following options:

**Option 1 – One-step Design-Based Certification Process:**

Boat builder (or NMMA acting on their behalf) must submit a full application and receive an EO before offering boats for sale in California. Please find listed below the documents that boat builders must submit as part of the certification application:

1. Full Design-Based Certification Application  
   (See Attachment: “SAMPLE DESIGN-BASED CERTIFICATION APPLICATION”)
2. Sample combined U. S. Coast Guard/NMMA/ARB/EPA emissions label format template  
   (See Attachment: “SAMPLE CALIFORNIA EVAPORATIVE EMISSIONS LABEL”)
3. Sample California emissions warranty statement template  
   (See Attachment: “CALIFORNIA EVAPORATIVE EMISSION CONTROL WARRANTY STATEMENT”)
4. Description of the evaporative family naming convention for SIMW, aligned with EPA  
   (See Attachment: “SIMW California Evaporative Family Naming Convention”)

**Option 2 - Two-step Design-Based Conditional EO Certification Process:**

Please see attached flow-chart titled “Draft Proposed SIMW Optional Conditional EO Certification Process” describing the two-step design-based conditional EO certification process. The two main steps are:

1. Boat builder (or NMMA acting on their behalf) must submit a signed statement of compliance letter and receive interim approval (a conditional EO, which will be issued within 30 days of receipt of the compliance letter) before offering boats for sale in California  
   (See Attachment: “DESIGN-BASED CONDITIONAL CERTIFICATION COMPLIANCE LETTER”)
2. Boat builder (or NMMA acting on their behalf) must submit a full application (including all three documents listed above in Option 1) within 90 days of the signed statement of compliance letter and receive an EO as in the one-step process.

Evaporative Family Name:  JXYZPVSSLAAA  Application Type:  _X_ New  ___ Running Change  _X_ Field Fix

XYZ Company hereby submits the certification application and makes the following statements of compliance regarding the 2018 model year certification of its spark-ignition marine watercraft.

1) Conformance with the general standards and requirements as required in Title 13, Chapter 15, Article 4, Sections 2850-2869 of the California Code of Regulations.
2) Conformance with the applicable fuel system requirements as required in 13 CCR, Section 2855(b), (including Deck Fill Plate Compatibility Standard, California Fuel Compatibility Standard, and Primer Bulb Requirements)
3) Conformance with the labeling and warranty requirements as required in 13 CCR, Sections 2859, 2860, 2861, and 2862.
4) Conformance with the fuel injection definition or equivalent performance standard and tamper resistance requirements as required in 13 CCR, Sections 2855(a) and 2856(e), respectively.
5) Production evaporative systems shall be in all material respects the same as those for which certification is granted.
6) Installation will be completed as directed by the component manufacturer and will adhere to the specifications within the referenced component Executive Order(s).

CALIFORNIA EVAPORATIVE EMISSIONS CONTROL SYSTEM
WARRANTY STATEMENT

YOUR WARRANTY RIGHTS AND OBLIGATIONS

The California Air Resources Board and (and evaporative system builder's name, optional) is pleased to explain the evaporative emission control system’s warranty on your (model year) (SIMW type). In California, new spark-ignition marine watercraft (SIMW) must be designed, built, and equipped to meet the State’s stringent anti-smog standards. (evaporative system builder's name) must warrant the evaporative emission control system on your (SIMW type) for the period listed below provided there has been no abuse, neglect or improper maintenance of your SIMW.

Your evaporative emissions control system may include parts such as: canisters, carburetors, clamps, connectors, filters, fuel caps, fuel lines, fuel tanks, valves, vapor hoses, and other associated evaporative emissions control system components.

MANUFACTURER’S WARRANTY COVERAGE:

This evaporative emission control system is warranted for two years. If any evaporative emission-related part on your SIMW is defective, the part will be repaired or replaced by (evaporative system builder’s name).

OWNER’S WARRANTY RESPONSIBILITIES:

- As the (SIMW type) owner, you are responsible for performance of the required maintenance listed in your owner’s manual. (evaporative system builder's name) recommends that you retain all receipts covering maintenance on your (SIMW type), but (evaporative system builder's name) cannot deny warranty solely for the lack of receipts.
- As the (SIMW type) owner, you should however be aware that the (evaporative system builder's name) may deny you warranty coverage if your spark-ignition marine watercraft or a part has failed due to abuse, neglect, or improper maintenance or unapproved modifications.
- You are responsible for presenting your (SIMW type) to a (evaporative system builder’s name) distribution center or service center as soon as the problem exists. The warranty repairs should be completed in a reasonable amount of time, not to exceed 30 days. If you have a question regarding your warranty coverage, you should contact (insert chosen evaporative system builder’s contact) at 1-XXX-XXX-XXXX.

The California evaporative emissions control system warranty covers the following list of components:

(1) Canister Mounting Brackets
(2) Carbon Canister
(3) Carburetor Purge Port Connector
(4) Clamps*
(5) Control Cables*
(6) Control Linkages*
(7) Control Solenoids*
(8) Control Valves*
(9) Electronic Controls*
(10) Fuel Cap
(11) Fuel Line
(12) Fuel Line Fittings
(13) Fuel Tank
(14) Liquid/Vapor Separator
(15) Pressure Relief Valves*
(16) Purge Valves
(17) Vacuum Control Diaphragms*
(18) Vapor Hoses
(19) All other parts not listed that may affect the evaporative emissions control system

*Note: As they relate to the evaporative emissions control system.
The California Spark Ignition Marine Watercraft (SIMW) Evaporative Family naming convention will be aligned with EPA’s 12-digit family naming convention for certifying evaporative vessel manufacturers.

Example:

**JXYZPVSSLAAA**

“J” “XYZ” “P” “VSSL” “AAA”

Position 1: Model year code

Position 2-4: EPA assigned 3-character manufacturer code

Vessel manufacturers must use the EPA-assigned 3-character manufacturer code. The instructions for new manufacturers to receive a code are located on EPA’s website: [https://www3.epa.gov/otaq/verify/mfr-code.htm](https://www3.epa.gov/otaq/verify/mfr-code.htm)

i.e. “XYZ”=XYZ Manufacturing

Position 5: “P” for permeation family

Position 6-9: “VSSL” for vessel certification

Position 10-12: Any combination of alphanumeric characters chosen by the manufacturer (to differentiate between families)

i.e. “AAA”, “001”, “XXX”, “123”, etc.
OPTION 2: SIMW OPTIONAL CONDITIONAL EO CERTIFICATION PROCESS

**Begin**

For each model year, manufacturer requests a conditional evaporative Executive Order (EO) by submitting a "Design-Based Conditional Certification Compliance Letter" to ARB. Mfr states that letter covers all production.

ARB quickly issues conditional EO so that mfr can sell in CA without delay (conditional EO only valid for 6 months). ARB issues one conditional EO that covers mfr's entire product line.

Manufacturer can legally begin sales into California.
- Mfr must properly install certified evaporative components
- Watercraft must be properly labeled (including evap family name)
- Emissions warranty statement must be provided to ultimate purchaser

**Mfr submitted full and complete “Design-Based Certification Application” to ARB within 90 days of compliance letter? (one certification application per evap family)**

**YES**

ARB reviews each application; application is complete and meets requirements?

**YES**

ARB issues new EO, one per evap family, that supersedes previous conditional EO

**NO**

Mfr updates application with missing info

**NO**

**YES**

ARB revokes conditional EO. Mfr may be subject to potential enforcement actions

**End**
OPTION 2: DESIGN-BASED CONDITIONAL CERTIFICATION COMPLIANCE LETTER
(APPLICABLE TO 2018 MY & LATER WATERCRAFT)

Manufacturer’s Letterhead

Date
Chief, Emissions Compliance, Automotive Regulations and Science Division
Air Resources Board
9480 Telstar Avenue, Suite 4
El Monte, California 91731

XYZ Company (the manufacturer’s legal name) hereby requests that its 20XX model year new spark-ignition marine watercraft be conditionally certified by ARB based on the compliance statements in this letter and on its commitment to provide any information needed to demonstrate full compliance with the California emission standards for new spark-ignition marine watercraft.

XYZ Company hereby makes the following statements of compliance regarding the 20XX model year evaporative certification of all of its spark-ignition marine watercraft models:
1) Conformance with the general standards and requirements as required in Title 13, Chapter 15, Article 4, Sections 2850-2869 of the California Code of Regulations.
2) Conformance with the labeling and warranty requirements as required in 13 CCR, Sections 2859, 2860, 2861, and 2862.
3) Conformance with the applicable fuel system requirements as required in 13 CCR, Section 2855(b), (including Deck Fill Plate Compatibility Standard, California Fuel Compatibility Standard, and Primer Bulb Requirements).
4) Conformance with the fuel injection definition or equivalent performance standard and tamper resistance requirements as required in 13 CCR, Sections 2855(a) and 2856(e), respectively.
5) The XYZ Company’s production will consist of the following watercraft types: (Personal Watercraft, Outboard, Inboard, Sterndrive, Jetboat, Other). The watercraft will be (Trailerable ≤26ft, Nontrailerable >26ft).
6) Production evaporative systems shall be in all material respects the same as those for which certification is submitted.
7) The completed evaporative certification application demonstrating compliance will be submitted to ARB within 90 days of the date of this letter.
8) No watercraft will be introduced into commerce in California before the conditional Executive Order is issued.

XYZ Company will demonstrate compliance with all applicable California evaporative emission standards and requirements, including submission of a complete certification application, within 90 days of the date of this letter. XYZ Company understands that failure to adequately demonstrate compliance by the above specified date shall be cause for the Air Resources Board to revoke the conditional Executive Order, in which event any watercraft introduced into commerce under the revoked conditional Executive Order shall be deemed uncertified, and which may subject XYZ Company to enforcement actions. The projected start date for introduction into commerce in California is MM/DD/YYYY.

If you have any questions, please contact me at xxx-xxx-xxxx.
