 Three Day Pass User Guide

What is a Three Day Pass?

A Three Day Pass is a temporary permit that allows a fleet owner to operate one vehicle per calendar year in California that does not meet the emission reduction requirements of the Truck and Bus regulation. The three day period begins at 12:00 AM on the date specified on the form and ends 72 hours later. There are no mileage limits for a vehicle operating during the three day period specified in the approved Three Day Pass.

Who is eligible to request a Three Day Pass?

Fleets that are based in California or vehicles reported in Truck Regulation Upload Compliance and Reporting System (TRUCRS) to use any flexibility provided by the Truck and Bus regulation are not eligible to use the pass. Fleets are allowed one pass per calendar year; if the fleet has already used a pass this year, they are not eligible to use the pass for any vehicle until the next year. Lastly, all vehicles currently in compliance with the engine model year schedules for heavier and lighter vehicles do not need to request a Three Day Pass.

Once a Three Day Pass has been confirmed online or approved by staff, the entry date cannot be changed, and the pass cannot be rescinded.

Who needs a Three Day pass?

Anyone based outside of California that wishes to operate temporarily in the State without meeting upgrade requirements will need a Three Day Pass for the vehicle to comply with the Truck and Bus regulation for the approved three days. Basic upgrade requirements for lighter and heavier vehicles are outlined in the table below. If I am unable to report online, how do I submit a paper form to request a Three Day Pass?

Your request will be processed immediately if you report online. However if you wish to use a paper form you must complete Form 149 located at the end of this document. If your request for a Three Day Pass is submitted three days prior to your planned entry, and CARB fails to respond by the date of the vehicle’s planned entry, the vehicle may operate in California for the requested three-day period if the vehicle meets the eligibility criteria as discussed earlier in this document. The vehicle operator must present a copy of the approval; or a copy of the request form if no response was received within the allotted time period; to Air Resources Board personnel upon request or the fleet owner may be subject to penalties or other enforcement action if documentation is not provided or they have determined you are ineligible to use the Three Day Pass.
