Pursuant to the authority vested in the Air Resources Board by Health and Safety Code (HSC), Div. 26, Part 5, Chap. 2; and pursuant to the authority vested in the undersigned by HSC Sections 39515-39516 and Executive Order G-02-003;

IT IS ORDERED AND RESOLVED: That the following exhaust and evaporative emission control systems produced by the manufacturer are certified as described below. Production vehicles shall be in all material respects the same as those for which certification is granted.

<td>6VWXT05.0375</td>
<td>MDV: 5,751-5,800 pounds ALV</td>
<td>LEV (low emission vehicle)</td>
<td>Diesel</td>
</tr>
</tbody>
</table>

The exhaust and evaporative emission standards (STD) and certification emission levels (CERT) for the listed vehicles are as follows (compliance with the 50 °F testing requirement for TLEV, LEV, ULEV, SULEV) may have been met based on the manufacturer’s submitted compliance plan in lieu of testing. Any debit in the manufacturer’s “NMNOG Fleet Average” (PC and LDT) or “Vehicle Equivalent Credit” (MDV) compliance plan shall be equalized as required. (For bi-, dual- or flexible-fueled vehicles, the STD and CERT in parentheses are those applicable to testing on gasoline test fuel.)

**BE IT FURTHER RESOLVED:** That for the listed vehicle models, the manufacturer has attested to compliance with Title 13, California Code of Regulations, (13 CCR) Sections 1965 [emission control labels]. 1968.1 [on-board diagnostic, full or partial compliance], 2035 et seq. [emission control warranty], 2235 [fuel tank fill pipes and openings] (gasoline and alcohol fueled vehicles only), and "High-Altitude Requirements" and "Inspection and Maintenance Emission Standards" (California Exhaust Emission Standards and Test Procedures for 2001 and Subsequent Model PC, LDT and MDV).

**BE IT FURTHER RESOLVED:** That the listed vehicle models are federally certified, and are certified under the provisions of 13 CCR Section 1961(a)(4) and the incorporated test procedures.

**BE IT FURTHER RESOLVED:** The listed vehicle models, which incorporate a fuel-fired heater, are certified on the condition that (1) the heater emissions meet the ULEV standard category for passenger cars specified in 13 CCR 1961(a)(1) and are added to the engine emissions; and (2) the certification levels listed above, which are the sum of the engine and heater emissions, comply with the emission standards listed above.

Vehicles certified under this Executive Order shall conform to all applicable California emission regulations. The Bureau of Automotive Repair will be notified by copy of this Executive Order.

Executed at El Monte, California on this 22nd day of March 2006.
