Pursuant to the authority vested in the Air Resources Board by Health and Safety Code Division 26, Part 5, Chapter 2, and pursuant to the authority vested in the undersigned by Health and Safety Code Sections 39515 and 39516 and Executive Order G-02-093,

IT IS ORDERED AND RESOLVED: The following diesel or incomplete medium-duty vehicles (MDV) with a manufacturer's GVWR from 8001 to 14000 pounds are certified as described below. Production vehicles shall be in all material respects the same as those for which certification is granted.

Following are:
1. The FTP exhaust emission standards or family emission limit(s) as applicable under 13 CFR 1906.8;
2. The EURO and NTE limits under the applicable California exhaust emission standards and test procedures for heavy-duty diesel engines and vehicles (Test Procedures); and
3. The corresponding certification levels, in g/bhp-hr, for this engine family.

"Diesel" CO, EURO and NTE certification compliance may have been demonstrated by the manufacturer as provided under the applicable Test Procedures in lieu of testing. For dual- and flexible-fuel, the CERT values [Brackets ()] are those when tested on conventional fuel test.

**BE IT FURTHER RESOLVED**: Certification to the FEL(s) listed above, as applicable, is subject to the following terms, limitations, and conditions. The FEL(s) is the emission level declared by the manufacturer and serves in lieu of an emission standard for certification purposes in any averaging, banking, or trading (ABT) programs. It will be used for determining compliance of any engine in this family and compliance with such ABT programs.

**BE IT FURTHER RESOLVED**: The listed vehicle engine models have been certified to the optional emission standards and test procedures in 13 CFR 1906.8 applicable to diesel or incomplete MDV with a GVWR of 8001 to 14000 pounds (GVWR) and shall be subject to 13 CFR 2139(c) (in-use testing of engines certified for use in diesel or incomplete MDV with a GVWR of 8001-14000) (GVWR).

**BE IT FURTHER RESOLVED**: For the listed vehicle models, the manufacturer has submitted the materials to demonstrate certification compliance with 15 CFR 1965 (emission control labels), 13 CFR 1969.2 (on-board diagnostic, full or partial compliance), and 13 CFR 2005 et seq. (emission control warranty).

Vehicles certified under this Executive Order shall conform to all applicable California emission regulations.

The Bureau of Automotive Repair will be notified by copy of this Executive Order.

Executed at El Monte, California on this 1/1/2008.
