

Email to DOORS Fleets with vehicles designated as agricultural-use

Date Sent: November 20, 2014

Subject: Confirming Vehicle Agriculture Designation

Dear Fleet Owner/Contact,

Thank you for reporting your off-road diesel vehicles in the Diesel Off-Road Online Reporting System (DOORS) for the California Air Resources Board's (ARB) In-Use Off-Road Diesel Vehicle Regulation (Off-Road Regulation). We noticed that you have reported and designated a vehicle(s) as agriculture. Fleets that report a vehicle(s) as agriculture are confirming that the vehicle is used more than 50% for agriculture use (i.e. farming, forestry, nurseries, etc.) as classified under the Off-Road Regulation. If your vehicle(s) is reported and designated as agriculture equipment, but the vehicle is not operating as such, it will result in a reporting violation.

To undesignate your vehicle(s) as agriculture, please log into your DOORS account, select "Edit Fleet Information", "Vehicle & Engine", and then click "Edit" next to the vehicles listed on the page that are designated as agriculture. Under the "Designated As," drop down box select the blank option to undesignate your vehicle as agriculture. Complete this process for each vehicle in your fleet that is not operating as agricultural equipment.

For information on designating off-road vehicles as agricultural, please see the Definition of Agricultural Operations Frequently Asked Questions (FAQ) document at <http://www.arb.ca.gov/msprog/ordiesel/guidance/ag-operations.pdf>.

If you have questions regarding the Off-Road Regulation or reporting DOORS, or you believe you have received this email in error, please contact the DOORS hotline at 1-877-593-6677 or doors@arb.ca.gov.

Sincerely,
ARB Off-Road Implementation Staff
