

Email to DOORS Fleets with possible on-road vehicles

Date Sent: July 29, 2013

Subject: Possible on-road vehicles in fleet

Dear Fleet Owner,

Thank you for taking the time to report your fleet to the California Air Resources Board (ARB). We appreciate your assistance in helping clean California's air.

Looking over your fleet, however, our staff has noticed that you have apparently reported on-road vehicles into the Diesel Off-Road On-line Reporting System (DOORS). DOORS is the reporting system for the In-Use Off-Road Diesel Vehicle Regulation and is exclusively for off-road diesel vehicles (with the exception of some two-engine vehicles). Your fleet appears to contain on-road single-engine vehicles that may be subject to ARB's Truck and Bus Regulation, and will therefore need to be reported into the Truck Regulation Upload, Compliance, and Reporting System (TRUCRS). Additionally, these vehicles will need to be deleted from DOORS.

We are requesting that you please update your DOORS account by deleting the following vehicles in your fleet:

| EIN | Your Vehicle # | Vehicle Manufacturer | Vehicle Type | Vehicle Model |
|------------|-----------------------|-----------------------------|---------------------|----------------------|
| XXXXXX | XXXXX | XXXX | XXX | XXXX |

For information regarding creating a TRUCRS account, or to log in to your TRUCRS account, please visit the Truck and Bus Reporting page found here:

https://ssl.arb.ca.gov/ssltrucrsto/trucrs_reporting/reporting.php

If you feel that you have received this email in error, and your vehicles are off-road vehicles as defined under the In-Use Off-Road Diesel Vehicle Regulation, please contact the DOORS Hotline at 1-877-59DOORS (1-877-593-6677) or by email at doors@arb.ca.gov.

Sincerely,
Off-Road Implementation Staff
