Arnold Schwarzenegger
Governor

June 28, 2004

Dear Sir or Madam:

This notice is to inform you of a date change for the previously announced public workgroup to continue discussions on the development of possible regulatory activities to reduce oxides of nitrogen (NOx) and diesel particulate matter (PM) emissions from commercial harbor craft in California. The workgroup was originally scheduled for July 14, 2004, in Sacramento. The new workgroup meeting will take place on August 5, 2004, in Sacramento. The specific information is listed below.

Date: August 5, 2004
Time: 9:00 AM - 12:00 PM (PDT)
Location: Cal/EPA Headquarters Building
First Floor Training Room 1, East
1001 I Street
Sacramento, California 95814

If you wish to participate by phone, you can call 1-888-791-2132, and using the passcode 52868. The leader name is Todd Sterling.

At this meeting, we will discuss the draft harbor craft emissions inventory and potential regulatory approaches based on our review of the inventory data. We also will consider ways to define harbor craft so they can be distinguished from the larger ocean going ships. A preliminary agenda is attached for your information.

Prior to the meeting we will post the e-mail agenda and any relevant handouts on our web site at <http://www.arb.ca.gov/harborcraft>. The materials will also be available as a hard copy on the day of the meeting. If you did not receive this letter directly but would like to be on the mailing list for future notification, please sign up via our web site at <http://www.arb.ca.gov/ports/marinevess/lists.htm>.

If you have a disability-related accommodation need, please go to <http://www.arb.ca.gov/html/ada/ada.htm> for assistance or contact the ADA Coordinator at (916) 323-4916. If you are a person who needs assistance in a language other than English, please go to <http://inside.arb.ca.gov/as/eo/languageaccess.htm> or contact the Bilingual Coordinator at (916) 324-5049.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.

California Environmental Protection Agency
