

## ATTACHMENT E TO RESOLUTION 13-50

### Adoption of the Phase 1 Heavy-Duty Vehicle GHG Emission Standards and Test Procedures

Staff's Suggested Modifications to the Original Proposal  
(Distributed at the December 12, 2013, Board hearing)

This attachment shows the modifications to the originally proposed regulatory language. The originally proposed regulatory language is shown in underline to indicate additions and ~~strikeout~~ to indicate deletions. The suggested modifications to the proposed regulation are shown in double underline to indicate additions and ~~double strikeout~~ to indicate deletions. All suggested modifications will be made available to the public for a fifteen-day comment period prior to final adoption.

Shown below are only those portions of the originally proposed regulation that have been modified. Existing intervening text that is not amended by these suggested modifications is indicated by " \* \* \* \* ".

1) The suggested modifications will provide manufacturers with additional lead-time, until January 1, 2015, to produce California engine and vehicle labels, instead of immediately after the regulation becomes effective, which is approximately fall of 2014.
