---

**Division 3. Air Resources Board**

---

**Chapter 1. Air Resources Board**

---

**Subchapter 1.5. Air Basins and Air Quality Standards**

---

**Article 3. Criteria for Determining Area Designations**

**§ 70301. Air Quality Data Used for Designations.**

(a) Except as otherwise provided in this article, designations shall be based on “data for record.”

(1) Data for record are those data collected by or under the auspices of the state board or the districts for the purpose of measuring ambient air quality, and which the executive officer has determined comply with the siting and quality assurance procedures established in Part 58, Title 40, Code of Federal Regulations, as they existed on July 1, 1987, or other equivalent procedures.

(2) Any other data which are provided by a district or by any other person will be data for record if the executive officer determines within 90 days of submittal of complete supporting documentation that the data comply with the siting and quality assurance procedures established in Part 58, Title 40, Code of Federal Regulations, as they existed on July 1, 1987, or other equivalent procedures. If the executive officer finds there is good cause that 90 days is insufficient time to make a determination, he/she may after notification of the person requesting the data review extend the deadline for completion for the data review.

(b) Except as otherwise provided in this article, designations and reviews of designations will be based on data for record for the three calendar years prior to the year in which the designation is made or the annual review of the designation is conducted.

(c) Data as described in section 70301(a)(1) and (2) become data for record upon completion of the executive officer's review.

NOTE: Authority cited: Sections 39600, 39601, 39607 and 39608, Health and Safety Code: Reference: Sections 39607 and 39608, Health and Safety Code.
