

Board Administration and Regulatory Coordination Unit

Division 3. Air Resources Board

Chapter 1. Air Resources Board

Subchapter 6. Abrasive Blasting

Article 4. Performance Standards

§ 92520. Stucco and Concrete.

Abrasive blasting of stucco and concrete shall be performed by wet blasting, hydroblasting, or vacuum blasting with the following exceptions:

Dry blasting with a certified abrasive may be used for:

(a) Window and door returns and frames;

(b) Eaves, overhangs and ceilings;

(c) Sweep abrasive blasting except for stucco surfaces;

(d) Completely shrouded structures and blast areas that effectively control emissions;

(e) Abrasive cleaning operations other than aggregate exposure or paint removal related to new concrete construction or repair activity if such operations are performed onsite.

NOTE: Authority cited: Sections 39600 and 39601, Health and Safety Code. Reference: Sections 41900, 41902, 41904, and 41905, Health and Safety Code.
