

Sustainable Communities Research at the Air Resources Board

Annalisa Schilla
Contract Manager

July 30, 2019

What are sustainable communities?

- Neighborhoods with:
 - Safe, reliable, and affordable transportation choices that improve air quality, health, and reduce greenhouse gas emissions,
 - Equitable and affordable energy- and location-efficient housing options, and
 - Improved access to quality employment, education, and other resources and services, and safe, vibrant surroundings.

What does CARB research support?

- Built environment research that helps us:
 - Combat climate change
 - Meet air quality standards
 - Create healthier homes and communities
 - Work toward equality in environmental and health outcomes

CARB's Sustainable Communities Research Program

- Three broad categories:
 - Land use and transportation planning
 - Green buildings
 - Low carbon transportation (such as electric vehicles)

Today's Research Seminar

Assessing the Travel Demand and Co-Benefit Impacts of Affordable Transit Oriented Developments

Presenters:

UC Berkeley

Dr. Miriam Zuk and Professor Karen Chapple

Study Motivation

- Assess if and how travel behavior varies as a function of access to high-quality transit for residents of subsidized multi-family housing
- Assess the co-benefits of living in multi-family housing with transit access
